Why travel insurance?

On our group holidays The Travel Broker Group strongly recommends that our travellers purchase out-of-country medical coverage and cancellation coverage.

Why Medical coverage?

- If you fall sick, you won't pay a potentially large medical bill.
- You'll have assistance services – in your own language – to locate a suitable medical facility and arrange transportation. And, while our escort will do everything he/she can to help, travel plans for the rest of our group have to be considered.

Why Trip Cancellation and Trip Interruption coverage?

- These days cancellation charges play a large part – in most cases, airfares must be paid when booked and are non-refundable.
- Hotels and other suppliers charge cancellation fees the closer you get to departure.
- Many policies include trip interruption – refunding you the unused portion of a trip in the event that you have to return home; maybe sickness in the family, a house fire or any other major disaster.
- Trip cancellation and interruption coverage protects you when you need to cancel for any one of the numerous insurable reason
